Dear Ms. Stevenson,

Delayed but in the mail today is the letter to which I referred in which a leader in a coming gathering of supposed assassination experts solicits for publication the false Livingstone concoction, posed as a question,

"Has Harold Weisberg been a significant source of disinformation in the JFK investigation? Why?"

This supposed question has the desired affirmative answer built in. It is highlighted on page 2.

That this Livingstone fabrication is to be central at tha conference is indicated on page 1. There, under the heading, "Conference Theme I: Taking the Critical offensive," it is stated that, "We intend to initiate and in-depth self-examination within the JFK assassination community."

The publication, "The Third Decade," with which Livingstone has been associated, is a major influence within what is "the JFK assassination community" that consists entirely of those I regard as conspiracy-theory nuts.

They do, however, have a major influence on what is publicly discussed and written.

The intent to do harm to me and bring me into disrepute, Livingstone's stated intnet, is I think clear.

My work is, as I told you, the only factual, non-theoretical work in the field.

I have and have had no association of any kind with "The Third Decade" and I have never subscribed to the publication.

Sincerely,

Harold Weisberg
